

RIOTS IN HAMILTON

Soldiers Dispersed Mob Attacking A Car On Saturday

Bulletin Special.

HAMILTON, Nov. 25.—Street cars were run yesterday but not till the riot act had been read by Sheriff Middleton. The police and militia charged the crowd of several thousand which had collected in front of the city hall. Some fifty people were injured by the batons of the police but none seriously. Wholesale arrests are being made and the militia are patrolling the principal streets of the city. There has been some stone throwing but little damage done. Cars are still running at 11 p.m. Continuation of trouble expected Monday. Whether it is in respect for the Sabbath or because of the show of force, there has been little agitation today, though there has been much more than the usual Sunday crowd on the streets. Cars were running tonight under full protection and there have been no marked disorders. It is estimated that at least one hundred were injured in the rioting of Saturday. Among them was a son of Col. St. Newman, ex-colonel of the 13th. During the evening a man was arrested for assaulting Col. Denison. The man was driving on the street and the colonel ordered him away. He used his whip on the colonel. When the riot act was read on Saturday, the sheriff was cheered. In the fighting which followed one strike breaker was so seriously injured that he was removed to the hospital in the ambulance. Constable Halsey was struck with a brick and is in a critical condition and none of the patrol escaped damage of one sort or another.

What was perhaps a continuation of the affray of Saturday evening took place on King near the corner of Walnut street. After crowds had been repeatedly dispersed from the central part of the city, a number gathered there and place a couple of barrels of cement or stone and some planks on the track. When the first car came along the motorman tried to rush through as he realized that in stopping he and the others in the car were in danger. The blockade of stone resisted the car and when the men

WRECK ON THE GULF

Norwegian Bark and Crew Lost. Other Disasters Feared

Bulletin Special.

Quebec, Nov. 25.—The government steamer Druid, Capt. Koenig master, arrived in port early this morning from Red Island with the information that the Norwegian bark, Magda, with her master, Capt. Isachsen, and entire crew of fourteen, with Pilot Chas. Pelletier, were drowned during the course of a gale on the lower St. Lawrence on Nov. 16th. The Magda went on Red Island reef and broke in two. Capt. Koenig is also of the opinion that another wreck and several smaller crafts were wrecked during the same storm, judging from the amount of wreckage seen. He believes that the Magda's crew tried to escape by means of life boats but were overwhelmed by the furious sea.

STURGEON FALLS FIRE.

Sturgeon Falls, Ont., Nov. 25.—A disastrous fire visited here early this morning and the leading block is in ruins. The blaze started in the rear of the McArthur block, King street, and quickly got beyond control. The owner of the block and his family escaped with difficulty in their night clothes. At one time the whole of the business section was threatened but was saved by a shift of wind. Loss, forty thousand, insurance thirty.

HEADQUARTERS AT EDMONTON.

Winnipeg, Nov. 25.—Northwest commercial travellers met last night and elected F. M. Morgan, vice-president with headquarters at Edmonton.

PORTAGE BOY KILLED.

Portage la Prairie, Nov. 25.—Louis Dresser, aged thirteen, a newsboy, while trying to board a freight in the yards here, slipped and fell between the wheels; both legs were cut off near the knee. He was at once removed to the hospital, but died within a short time.

got out to clear the way they were violently assaulted and beat a hasty retreat to the car and threw themselves on the floor. The crowd showed bricks and stone at the car, battering it almost to pieces. Screens and windows were soon broken and many missiles hit those inside the car. They lay on the floor for a short time, but were maddened into fighting humor and with the stones thrown at them they hurried them back at the crowd and injured some.

Some one telephoned for soldiers and the Royal Canadian Dragoons and the Horse Artillery men galloped down full speed on the rioters and they fled in all directions. The track was then cleared and the wreck of the car proceeded to the east end barn. About all that was left intact were the trucks. Mortimer Arthur Bertrand was injured in the spine. He was taken to the hospital, where he remained over night. Nearly all other men in the car were more or less bruised by stones. Not long after that a report came in that the gang had made an attack on the east end car barns, where some strike breakers are quartered. The cavalry galloped down there, but only a small crowd had gathered and threw a few stones. About 10 o'clock the cars were called in and after that the crowds went home.

ARRANGING SETTLEMENT

Both Parties In Lethbridge Trouble Willing To Concede

Bulletin Special.

Lethbridge, Nov. 25.—Negotiations for settlement of coal strike have proceeded all day, and relief is at last in sight. Mackenzie King, deputy minister of labor, has received replies from both parties on his suggestion of a modus vivendi whereby operations may be resumed at once. From these replies it appears that both parties are willing to make large concessions from their original positions, in view of the distressing conditions which exist, or are imminent in Saskatchewan. A conference was begun at 10 o'clock tonight at which were present Mr. King, a representative of the district Mine Workers of America, Messrs. Sharpe and Sherman, as representatives of the international board, and Mr. Naismith, representing the Alberta Railway and Canal company, who operate the mines. A new wage scale is under discussion and it is felt that a resumption of work can be the only logical outcome and that Tuesday will be the date fixed. A mass meeting of the miners will probably be held tomorrow morning to ratify the decision of the conference.

THE PASSING OF THE RANCH.

Winnipeg, Nov. 25.—On Saturday evening G.T. Baker, of Liverpool, and J. McLean, of Lethbridge, were interviewed concerning the cattle export statistics for this year come to be completed, it will be found that the export of cattle from Western Canada has been unusually large. Some even think that it has reached its climax for at least several years to come. The ranching area has diminished rather than increased, the recent output this year having been due to an exceptional combination of circumstances. McLean says it has been due to the carrying over from unfavorable seasons. Baker gives a doleful outlook on Canadian ranching land rising in value. From McLean west they are closing down and ranching has practically gone out of existence.

WOMAN KILLED.

Detroit, Nov. 25.—One woman was killed and sixteen other persons were injured early today when an electric freight car dashed into the rear end of a suburban electric car near Birmingham, 18 miles from this city on the Pontiac division of the Detroit United Railway, from Detroit. It was well filled and had stopped at the foot of the steep grade in front of the power house when without warning the freight, also bound from Detroit, appeared over the crest of the grade and dropped down the 200 foot incline at a terrific speed. It struck the standing passenger car with such force that it telescoped the car for two-thirds of its length. Miss Harriett Harmer of Pontiac, was instantly killed.

C.N.R. LOSES IN BIG RACE

Came In Poor Second In The Race For The Yellowhead. G.T.P. Has First Say

Bulletin Special.

Ottawa, Ont., Nov. 25.—The Dominion Government has approved of the route of the Grand Trunk Pacific through the Yellowhead Pass. The C. N. R. applied to the Minister of Railways Saturday for a route through the Yellowhead Pass, but the application was held over until December 17th to permit an engineer going to see how much space was available in the pass.

WILL BE DEPORTED.

Winnipeg, Nov. 25.—Immigration Commission Smith has two men in the hospital at present whom he will return to England. They have been in this country for a few months and both have been working on farms. The employers sent them back to the immigration department as incapable of earning their living and for the past two weeks they have been under detention at the immigration hospital here.

TRIED AGAIN

Kansas City, Nov. 25.—A daring train robbery was committed one hundred miles east of Kansas City early today. A masked man single handedly robbed twenty passengers on the Chicago, Burlington and Quincy passenger train. After a half hour's work he secured about two thousand dollars by snatching watches and jewelry. He was finally overpowered by Conductor Bywood and handed over to the police at the next station. He was recognized as the man who had committed a similar deed in the same place a couple of weeks ago.

A. WILLIAMSON TAYLOR, Messrs W. S. Weeks & Co. Real Estate

Mr. Taylor is the son of an Anglican clergyman, Rev. Jeremy Taylor, late Vicar of South Shields, Durham, England, a direct descendant of Jeremy Taylor, the Ecclesiastical Bishop of Down.

Mr. Taylor received his education at the Grammar school, Newcastle-on-Tyne, and at Durham university. Mr. Taylor is an old timer in Western

Canada, having come there in 1882, when he joined the Indian Department service, and was associated with it for ten years. He has seen much of the development of the West, and has been an active participant in its progress. Mr. Taylor is a member of the W. S. Weeks & Co., financial brokers of this city. Mr. Taylor has a leaning towards Conservative principles.

Telegraphic

BODY FOUND.

Medicine Hat, Nov. 25.—A ghastly find was made last night by a laborer taking a short-cut home from Purmal's brick yard just outside the city limits. He was walking along the bed of Rose creek, towards the main trail leading into the Hat, when he found the remains of a man frozen in the ice to such an extent that only one shoulder and a portion of one leg was exposed to view. On the police being summoned a solid cake of ice containing the remains was cut out and then carefully removed from the body which was identified as that of Thomas Armstrong, foreman on the Dunmore Junction C.P.R. construction gang. It is thought that Mr. Armstrong, who was in town on Saturday, got lost in the storm and missed the trail falling over the bank, at the foot of which he was found. He was probably rendered unconscious half an inch of ice when he came in contact with it. During the week the cold was so intense as to freeze the ice to a depth of almost a foot and only a small portion of the body was left exposed. The trainman took charge of the remains, which will be forwarded to relatives in Woodford, Ontario.

THE BLACK HAND

Montreal, Que., Nov. 26.—The murder or another Italian in Montreal suggests work here of the Black Hand Society. Not long since an Italian was found dead in a house and nothing could be learned of his murderers. Now another has been found at Windmill Point, face downwards in a pool of water. He had been stoned and knifed and his skull crushed in. Many blood-clotted robes were in the vicinity giving evidence of a hard fight. He was killed Saturday night and from the evidence of police and others was probably the victim of five or six fellow countrymen who were seen together in that vicinity Saturday night. A letter from Italy warning him to be careful, was found in his pockets. A grain ticket was also found containing the words, "Sartolo Francis," which may be his name. The police are at work on the case.

TORPEDO BOAT BURNED

Toulon, Nov. 26.—The French torpedo training boat was burned to the water's edge in this harbor here last night. Of ten hundred men on board all but three were saved.

Third Candidate For Mayor.

Herbert J. Dawson, of Dawson & Hyndman, solicitors, announced himself this morning as a candidate for election on the mayoralty ticket.

Mr. Hyndman, his partner, who announced himself as a candidate for Alderman, has withdrawn from the race, as the firm can not spare two men for the civic service.

Mr. Dawson said this morning that he was coming out in deference to the wishes of his friends. He had strong representations made to him by an influential body of ratepayers on Friday and Saturday and this morning he decided to make the race. Mr. Dawson said that he had no

platform to place before the electors; that conditions changed so rapidly in Edmonton that a platform covering all issues that might arise within the year could not be framed. His promise was that he would use whatever brains and ability he had been endowed with to meet the questions as they arise, relying on his common sense to get on the right side of everything.

Mr. Dawson has been a resident of Edmonton since 1903, practicing law in the city. He is a member of the Ontario, the British Columbia and the Alberta bar, and is a heavy real estate owner in Edmonton.

THE PROPOSED CAR LINE ROUTE

A resident of McCauley street writes to the Bulletin:

"I think it would be a mistake to make Sutherland street the northern line. There is a rapidly increasing population between that street and Hat Creek and the proposed line of a street car line should be to reach that line at the city furthest from the business part. If we have to walk five or six blocks to take a car on Sutherland street we might as well walk the whole distance to Jasper avenue."

"My idea is to run north on Kinistone avenue, to Edmonton street and back by 21st street to Jasper avenue. I have not been out to Twenty-first street, but unless there is a growing population out there I should think it would be unwise to run a car line so long a distance through trees and brushwood to reach that point to begin with at any rate."

"The Eastern Avenue route, and perhaps it might be well to start north on Syndicate street, thence along Sutherland to Kinistone on the route already mentioned, and wherever the line may be built that cars run in opposite directions on it."

"I am strongly in favor of all street car lines using the property of the city. Private companies are a hard proposition to deal with and dishonest practices are usually resorted to by them when any question comes up that has to be voted on by the city council or ratepayers."

HONORS FOR PERCY BYRON

Mr. Percy C. Byron of this city has just received information of his success at Milan Exposition. The word came last Saturday from W. H. Tolman, director of the American Institute of social service, informing Mr. Byron that his exhibit of flash-light photographic studios installed and interpreted by the American Institute of Social Service at the Milan exposition 1906, had been awarded a diploma of honor and a medal.

The entire exhibit of photographic studios has been loaned to Prince Casano of Italy for exhibit in Rome during the winter season when it will be brought to the most influential social and political centres on account of its educational value and its practical suggestions in promoting the best movements in Italy.

Mr. Byron's work won similar awards at Paris in 1900 and at St. Louis in 1904.

IN BEDROOM FURNITURE

WE LEAD.

During the last few months we have been making selections of most artistic designs in Bedroom furniture, and now claim that we have the finest assortment this side of Toronto—magnificent creations in Quartered oak, Briss-Eye Maple, and genuine Mahogany, and especially well suited in mahogany, inlaid with brass; most important to those who wish to practice economy, is the fact that these goods are priced for a quick turnover. Come early and see your choice of this fine line.

—The advantage of the executive having power to issue or revoke player's certificates without notice, was weighed in the balance with the unfairness which might arise if a club were deprived of one game of the services of a player who might afterwards be proved guilty. An amendment to the regulations to make this residence rule read, "August 1st, instead of October 1st," was passed without opposition, a still further check upon the hockey tourist.

By the rules of the game as amended, a referee is no longer obliged to stop a game when an irregularity occurs. This will prevent players benefiting by committing a foul deliberately when their own goal is in danger.

The executive was empowered, but not instructed, to affiliate this association with the C. A. A. U.

"The C. A. A. U," said Mr. Merriek, "has been the plastic victim of gentlemen interested in molding it to suit their own particular purpose." He pronounced a "vigorous housecleaning campaign," however, and desired that the hands of the new management be strengthened in inaugurating principles of pure amateurism, without partiality and without fear.

The officers elected are—Messrs. D. L. Darroch, president; D. J. Turner, first vice-president; L. B. Duff, second vice-president; A. W. McPherson, treasurer and W. A. Hewitt, secretary, having been elected by acclamation.

The international hockey league will commence its third season Dec. 11, when the Canadian Soo team opens in Pittsburgh, and the American Soo team at Calumet. Two days later the first game for the season will be played in Houghton. The schedule as adopted at the meeting in Chicago calls for each team to play twenty-four games, twelve at home and twelve abroad, the season coming to a close March 15.

The international hockey league has three referees for the coming season, which opens December 11, one at Pittsburgh, one for the Soos and one for the Copper country, in order to cut travelling expenses. J. A. "Grindy" Forster, Thessalon, Ont. last year's point on Portage Lakes, Houghton, who is out of the game this year, is appointed Soo referee. J. P. Mooney will probably have the Copper country, and Roy D. Schooley will probably get Pittsburgh.

Advice from Kenora state that St. Griffe, the Thessalon elongated rover, has definitely decided to return for the hockey season from British Columbia. The Thessalon would like to secure Charlie Haddock of the Winnipeg as spars man for their eastern trip and they have their eyes on a couple of other Winnipeg players also for substitutes. So far nothing has been heard from the Montreal Wanderers regarding the Stanley cup series, although several letters and telegrams regarding the matter have been forwarded to the Wanderers' headquarters.

The annual meeting of the Ontario Hockey Association was held in Toronto last week and five new clubs admitted. "One man one vote" principle was adopted; that is, a club with two or more teams has but a single vote. This is designed to prevent clubs putting in teams which never exist except on paper and are designed simply to elect some candidate or candidates.

The immediate past president of the O. H. A. was definitely enfranchised as a member of the executive.

An interesting point was decided in regard to granting permits to bankers who have hitherto been re-used certificates when moved by their banks, after the residence rule date had expired. As the bankers are moved willingly, the president favored the amendment to grant them change of residence certificates.

One delegate declared that large firms in country towns bring pressure to bear on banks which handle their accounts to bringockey players there. There was a feeling that there are players of other professions who move just as innocently of guilt.

An interesting point was decided in regard to granting permits to bankers who have hitherto been re-used certificates when moved by their banks, after the residence rule date had expired. As the bankers are moved willingly, the president favored the amendment to grant them change of residence certificates.

One delegate declared that large firms in country towns bring pressure to bear on banks which handle their accounts to bringockey players there. There was a feeling that there are players of other professions who move just as innocently of guilt.

—The advantage of the executive having power to issue or revoke player's certificates without notice, was weighed in the balance with the unfairness which might arise if a club were deprived of one game of the services of a player who might afterwards be proved guilty. An amendment to the regulations to make this residence rule read, "August 1st, instead of October 1st," was passed without opposition, a still further check upon the hockey tourist.

By the rules of the game as amended, a referee is no longer obliged to stop a game when an irregularity occurs. This will prevent players benefiting by committing a foul deliberately when their own goal is in danger.

The executive was empowered, but not instructed, to affiliate this association with the C. A. A. U.

"The C. A. A. U," said Mr. Merriek, "has been the plastic victim of gentlemen interested in molding it to suit their own particular purpose." He pronounced a "vigorous housecleaning campaign," however, and desired that the hands of the new management be strengthened in inaugurating principles of pure amateurism, without partiality and without fear.

The officers elected are—Messrs. D. L. Darroch, president; D. J. Turner, first vice-president; L. B. Duff, second vice-president; A. W. McPherson, treasurer and W. A. Hewitt, secretary, having been elected by acclamation.

The international hockey league will commence its third season Dec. 11, when the Canadian Soo team opens in Pittsburgh, and the American Soo team at Calumet. Two days later the first game for the season will be played in Houghton. The schedule as adopted at the meeting in Chicago calls for each team to play twenty-four games, twelve at home and twelve abroad, the season coming to a close March 15.

The international hockey league has three referees for the coming season, which opens December 11, one at Pittsburgh, one for the Soos and one for the Copper country, in order to cut travelling expenses. J. A. "Grindy" Forster, Thessalon, Ont. last year's point on Portage Lakes, Houghton, who is out of the game this year, is appointed Soo referee. J. P. Mooney will probably have the Copper country, and Roy D. Schooley will probably get Pittsburgh.

Speculator!

Do you want one lot with improvements on the main business street of Strathcona, Whyte Avenue. This is the very best buy in the city. Lot is located very close in and will pay a good rental at present. A handsome profit awaits the purchaser of this property.

Price \$3,500

SOME TERMS.
One Lot, 3 blocks from the business centre of Strathcona.
Price \$450.
Terms \$50 cash, balance very easy.

Strathcona Investment Co.
Strathcona Office, Whyte Ave.
Just across the river from Edmonton.

THE High Level Bridge
Is all right, but these low water mark prices are better for your consideration today.

Lot Bl. 1, H.B.R., \$7,500. Good terms.
Corner Bl. 1, H.B.R., \$1,500. Terms.
Double corner lot, H.B.R., \$3,500.
Lot Bl. 14, south of track, \$300.
Lot Bl. 8, north of track, \$700.

J. A. "Grindy" Forster, Thessalon, Ont. last year's point on Portage Lakes, Houghton, who is out of the game this year, is appointed Soo referee. J. P. Mooney will probably have the Copper country, and Roy D. Schooley will probably get Pittsburgh.

Advice from Kenora state that St. Griffe, the Thessalon elongated rover, has definitely decided to return for the hockey season from British Columbia. The Thessalon would like to secure Charlie Haddock of the Winnipeg as spars man for their eastern trip and they have their eyes on a couple of other Winnipeg players also for substitutes. So far nothing has been heard from the Montreal Wanderers regarding the Stanley cup series, although several letters and telegrams regarding the matter have been forwarded to the Wanderers' headquarters.

The annual meeting of the Ontario Hockey Association was held in Toronto last week and five new clubs admitted. "One man one vote" principle was adopted; that is, a club with two or more teams has but a single vote. This is designed to prevent clubs putting in teams which never exist except on paper and are designed simply to elect some candidate or candidates.

The immediate past president of the O. H. A. was definitely enfranchised as a member of the executive.

An interesting point was decided in regard to granting permits to bankers who have hitherto been re-used certificates when moved by their banks, after the residence rule date had expired. As the bankers are moved willingly, the president favored the amendment to grant them change of residence certificates.

Local News

—L.O.L. 1794 meets tonight in Houston's Hall.

—Mr. and Mrs. D. W. Reid, Fort Saskatchewan are in the city.

—Dr. Clendenen has returned from Athabasca Landing.

—Coal teams are crossing on the ice at Clover Bar.

—The Thistle roller rink will open this evening with full brass band in attendance.

—The executive of the city hockey league will meet at the Alberta hotel this evening.

—John Somerville Jr. went east last evening on the C.N.R. to Montreal on a business trip.

—Carter's Jubilee Singers are at the Alberta opera house this evening under the auspices of the Young Men's club of Queen's avenue church.

—John Hart, of the Mariaggi, has taken over and opened the Grill on First street under the new name of the Leader.

—S. H. Coward, manager of the northern route of Redfern Bros., returned on Saturday evening from a two months inspection trip to Lesser Slave Lake.

—Mr. Bellgrave, who was reported in the Horse Hills correspondence as buying cattle in large quantities and shipping east, states that he is not in the grain business himself any more than that he is handling oats on commission for farmers who wish to ship for themselves.

—Mr. Vernon Barford's piano pupils give their usual monthly recital this evening at a quarter past eight in All Saint's School Room. They will be assisted by Miss Eva Seydese, who will sing two numbers. These recitals are open to all interested in music.

—Gorman and Clancy are building a warehouse for builders' supplies on Fourth street, opposite Kenneth Mackenzie's wholesale house. The building is 6x130. The front portion, which will be two storeys, will be utilized for a dwelling above and for offices and show rooms below. R. E. Elliot has the contract.

—Last night Mr. John Hart, the proprietor of the Mariaggi cafe, opened what was formerly known as the Grill, under a new name. The new restaurant will be known in future as the Leader. The building has been refurbished and a number of stalls put in in addition to the private dining room.

—Cannell & Spencer have the contract for the erection of a printing office and dwelling on Fourth street, a short distance north of Jasper. The building will be owned and operated by Mr. Armstrong, who hails from Victoria, but who has been engaged in Wetaskiwin during the past summer.

—The municipal trenching machine has been moved over to Sixth street, where it is being started to work at the corner of Mackenzie and Sixth street. It is being operated by the city engineer's department and the intention is to put it at work laying tile until the frost interferes with the work.

—Johann Derulsen of Oldville, near Prince Albert arrived in the city last night by the C.N.R. with his wife and four children. He claimed that he was robbed of \$70 on the train and had only a dollar when he landed at the station. He was going to Lechu to visit his father. Through the kindness of the proprietors of the Pendennis Hotel he was given transportation to his destination. The robbery was reported to the railway authorities.

—Corporal T. Dunn, R.N.W.M.P., Regina, and Constable Martin, brought two prisoners to the Edmonton penitentiary Saturday night. One was Maygar, who was found guilty at Regina for the murder of a farmer named Cameron, south of Regina, last summer. He was sentenced to be hanged on the 29th of this month, but the death sentence was commuted to imprisonment for life. The other prisoner was Alfred Corden, sentenced to three years in Edmonton penitentiary for horse stealing.

The other prisoner was Alfred Corden, sentenced to three years in Edmonton penitentiary for horse stealing.

—Johann Derulsen of Oldville, near Prince Albert arrived in the city last night by the C.N.R. with his wife and four children. He claimed that he was robbed of \$70 on the train and had only a dollar when he landed at the station. He was going to Lechu to visit his father. Through the kindness of the proprietors of the Pendennis Hotel he was given transportation to his destination. The robbery was reported to the railway authorities.

—Corporal T. Dunn, R.N.W.M.P., Regina, and Constable Martin, brought two prisoners to the Edmonton penitentiary Saturday night. One was Maygar, who was found guilty at Regina for the murder of a farmer named Cameron, south of Regina, last summer. He was sentenced to be hanged on the 29th of this month, but the death sentence was commuted to imprisonment for life. The other prisoner was Alfred Corden, sentenced to three years in Edmonton penitentiary for horse stealing.

MORE CANDIDATES.

Two more candidates announced themselves today as being in the field on the aldermanic ticket. They are Chas. H. Stuart Wade, well known as police magistrate, and J. B. Walker, of Walker & Co., insurance and real estate, with offices in the Norwood block.

Mr. Wade said this morning that he had so recently entered the field that he had not yet had time to get an election statement together. His platform, however, would be "Edmonton, first, last and all the time." Not any particular part or section of Edmonton, but the whole city. He has been a resident of the city continuously for six years and spent three years and a half previous to that in exploring the far north, an experience which gives him, he believes, a pretty thorough knowledge of conditions and requirements. He will issue an election address shortly.

J. B. Walker said he was working on his election address and would have it ready for tomorrow. He had little to say today, except that he was in the race and would be heard from.

MR. HEATHERINGTON'S PLATFORM
 Mr. J. R. Heatherington, a candidate for aldermanic honors has issued the following platform.

I. Municipal ownership of franchises and utilities.

II. Progressive and honest civic legislation consistent with economy.

III. Limited street car fare for working men.

IV. Belt line street car service.

V. Commissioners elected by the people on two years aldermanic qualification.

VI. Public market where consumers can buy direct from the farmers.

VII. Better system of bookery keeping at city hall.

VIII. Encouraging manufacturers.

IX. Rapid extension of sewer and water system and pavements.

X. THE C. P. R. AGREEMENT
 A prominent citizen wrote the Bulletin on Saturday:

"The citizens committee that waited on the council last evening to present their views with regard to this agreement met with very little encouragement from that body. The attitude assumed by some of the councillors that because they had been parties to the drawing up of the agreement, they must therefore adhere to it, does not appear to have much to commend it. The consistency of conduct that is expected from a councillor is that he shall always be alert to protect the city's interest, not that he shall refuse to change his mind or alter his course even when it is apparent that he has made a mistake."

"The argument presented by the C. P. R. solicitor that the city could, after deliberately entering into an agreement, go to the railway commission at some later date and ask that body to undo what is done today, is so absurd that we hardly require a man to come all the way from Calgary to present it to us. The railway commission has very great powers, but it exercises those powers along lines of common sense and it has something else to do besides undoing agreements deliberately entered into."

"The question after all is whether the city of Edmonton should make a present to the C.P.R. of two of its leading thoroughfares and should thereby incur an obligation to pay a sum for damages the amount of which has not been attempted to be ascertained, but which will beyond doubt be very large. Are we very much mistaken if the citizens of Edmonton think so lightly of their city and its future growth as to consent to any such proposition?"

POLMATER SISTERS
 Brandon Daily Sun.—Occasionally a travelling concert company strikes this city that gives satisfaction, but none have been more worthy of liberal support than the Polmater Sisters, who appeared last evening in the opera house to an audience that filled it to overflowing. The stage was beautifully decorated, making a pretty background for the ladies in their handsome gowns of pink silk with overdress of net and sequins. Of the Polmater Sisters it is hard to discriminate, as each one is an artist in her own particular line. In the program of fourteen numbers there was sufficient variety to supply half a dozen entertainments. The program consisted of overtures, string quartets, trios, duets, cornet solos, trombone solos, vocal trios and readings. Should this talented company ever visit our city again, it is needless to say, they will be greeted by a bumper house. The Young Men's Club of the Methodist Church was instrumental in furnishing this treat last night.

The company appear in the Edmonton Opera House tomorrow evening under the auspices of McDougall Epworth League.

At "Glencoe," Edmonton, Nov. 26, to Mr. and Mrs. Donald W. Macdonald, a daughter.

MONDAY, NOVEMBER 26, 1906.

THE LAMENTATIONS OF MR. WALSH

Mr. Walsh, the Calgary lawyer, contesting the constituency of Gleichen in the interests of himself and the Opposition, came out of the woods a few days since and held a public meeting in the town of Shepard at which the Herald assures us there were "fully fifty electors" present. The same authority considers it so remarkable a circumstance as to demand record that the sentiment of this enormous throng of the faithful was "most favorable to the candidature of Mr. Walsh."

From the reports published the gentleman's protracted seclusion appears to have been singularly unprofitable—it has neither brightened his outlook nor revealed just cause for his plaints. The meeting was designed presumably as an occasion on which Mr. Walsh should launch a terrible broadside of criticism dimly forecast by the Calgary Herald. From time to time in language vague but suggestive this journal has warned us to be prepared for the worst. Mr. Walsh, we were given to understand, was accumulating an enormous quantity of governmental shortcomings, was decking them in barbed language and generating behind them an unprecedented volume of forensic fury. In the fulness of time we were assured this preliminary would be complete, a kind of spontaneous combustion would then naturally set in, resulting in an explosion, the instant annihilation of the Liberal candidate and untold damage generally to Liberals and Liberalism.

We may breathe easier now. The worst is over. The explosion has spent itself and we may calmly survey the consequences. Meaning no offence, the interests of truth constrain us to say that the performance generally bears a close resemblance to that direct disappointment of the loyal celebration—the "fizz." For the benefit of the uninitiated or those of failing memory it may be explained that a "fizz" is a firecracker that fails to crack. Thanks, either to fault of construction, or handling, the explosive power is missing and instead of the resounding crack and the flying fragments the expectant celebrant beholds only a puff of harmless smoke, accompanied by an equally harmless and unsatisfying hiss.

There was criticism—of a kind—in Mr. Walsh's address; indeed the gentleman appears to have been in a singularly unhappy frame of mind, but it was so apparently criticism for criticism's sake that it is not likely to be taken seriously, and so scattered in its objects and generally so puerile in its nature that should it be taken seriously the consequences are not likely to be pleasant for Mr. Walsh and still less pleasant for Mr. Walsh's supposed friends. In the subjects of his attention Mr. Walsh displayed a most unusual generosity—a generosity quite indifferent as to whether or not the subjects had any direct or indirect reference to the Gleichen by-election and the candidature of Mr. Walsh.

The present Opposition members were admitted very good men, but with too little experience in legislative matters; this despite the fact that they have each had two months' more experience than the gentleman who modestly proposes himself as a fitting leader for them.

The Government was represented as lacking in magnanimity for opposing Mr. Walsh's candidature; this by the man who a year since announced that only two Liberals would be elected in Alberta and then devoted himself to a magnanimous attempt to defeat these two also.

Another plaint was that Alberta had four ministers whose combined salaries exceeded those of the former administration of the North-West Territories; this, regardless of the fact that Manitoba and British Columbia, under Conservative government, have each one more minister and that among the advocates of reasonably liberal salaries for the ministers of

this province were the journals on which Mr. Walsh is now leaning for support.

The sessional allowance of \$1,000 was another source of grievance; though the party Mr. Walsh aspires to lead stood out for an allowance of \$1,500.

The criticism was the weaker that for the alleged grievances he had no alternatives to offer. As the Albertan aptly says:—

"The remarkable part of the address is not so much what he said as what he neglected to say. He made no mention of the Gleichen Chronicle, his paper of last year, in which he expressed decided opinions about any but a rancher representing Gleichen. He mentioned nothing about the policy of the administration. He said nothing about the policy and the performance of the administration concerning government telephones, which telephone lines are being built right through the riding of Gleichen. The Calgary Herald said that the telephone policy of the administration was not new and that it had been adopted by other provinces before it had been adopted by Alberta. That is correct but it was Alberta that made the start in the actual building. While other provinces were talking, Alberta was acting. That is a way that this business administration has of doing. He said nothing of the beef enquiry. He said nothing of the railway policy of the government by means of which the province is gaining thousands of dollars of revenue for Alberta. He said nothing of the actual work of the administration."

However capable or incapable the present members of the Opposition may be there is nothing in his opening address to indicate that the province would get better service from Mr. Walsh. Nor is there any sign of a superior grasp of public affairs which would warrant his replacement of the present Opposition leader.

CURRENT COMMENT

The despatches tell us of a society formed in Chicago to work for the annexation of Canada. The real chances of annexation are considerably farther away than Chicago.

The city voters list for 1906 contains 2,554 names. As the unrevised list was printed, this number does not include the names added by the court of revision—something over seventy. Of this number 1,293 are in polling division number one, west of First street, and 1,361 in division number two, east of First street. The list is published in convenient pamphlet form, the names arranged in alphabetical order, with marks denoting whether the voter is assessed on income or property, and whether he is a separate school supporter and whether qualified to vote only on referred by-laws.

They are having a strenuous municipal campaign in Calgary too. Alderman Stuart, a candidate for re-election, said something derogatory of the press and the Albertan retaliates by a few suggestions for his consideration. The Albertan says, in an editorial addressed to the second person singular:—

"If you were to tell the absolute truth about your vacillating methods in the police department, the public would be wiser. If you took a minute off to inform the public of your methods of canvassing for business among officials who were right in your grip, it would be more interesting to the voters. If you were to tell the public that you opposed the extension of the waterworks, that you made no effort to have the trunk sewer built, that you assisted in the slaughter of the commission, that you voted against the reduction of the membership of the city council, that you were a member of the finance committee, and assisted the plunderers of the Calgary sinking fund in their nefarious work, that you did not patronize the Calgary city lighting until you, as well as a number of other aldermen and city officials, were exposed through the columns of this paper, that you attempted and succeeded in filling up the police force with incompetents, against the recommendation of the chief of police, that you did nothing during the entire year entitling you to the support of the electors; if you should explain these matters, confine your attention to these affairs, you would get along perhaps as well as by showing the superiority of the Norwood Register over real newspapers."

FROM DAY TO DAY

AS IT SOUNDS

Concert-goers will appreciate this effort of some contributor to the Toronto Star, as they decipher the words of their favorite songs:

(Translated from stenographic notes taken during the rendition of the ballad by Mr. Howitt Owtie, the eminent baritone.)

These yowlers open with E-e-e, dear Art.

Are you a string of pearls and me?

I count me no var res wuna art.

My row aroel my row aroel!

E-e-e chow ray purr fetch burt lay pair.

To fill the tin ab once rung;

I tell leech be dun to the yend

Dan there across iz zung.

O men now come that alas and burr

No bahr ran gay Nan bit her law

Sigh kth seech bee Dan stry vat lass

two levan.

Tewk lee the crew

Sweet! Tar!

Two kih ass! the crew Sse!

MY OWN FOUR WALLS.

The agrom and night is on the was's

Wild through the wind the herdsman

calls.

As fast on my willing nag I haate

Home to my own four walls.

Black tossing clouds, with scarce a glimmer

Envelop earth like sevenfold pall

But wifekin watches, coffee-pot, doth

glimmer

Home is my own four walls?

A home and a wife I too havegot

A hearth to blaze whatever befalls;

What needs a man that I have not

Within my own four walls?

King George had palaces of pride,

And armed grooms must ward those

halls;

With one stout bolt I safe abide

Within my own four walls.

The moorland house though rude it be

Must atone the brunt when prouder

dwells.

'Twill screen my wife, my books, and me

All in my own four walls.

—Thomas Carlyle.

THE HOME-MAKER.

As a rule the worth of the worth-lessness of the home is the work of a woman. "A man may build a castle or a palace," says Francis Cobbe; "but poor creature, he be wise as Solomon, or rich as Croesus, he cannot turn it into a home. No muscular mortal can do that. It is a woman and only a woman—a woman by herself, if she must, or prefers, without any man to help her—who can turn a house into a home."

A COLONIAL LADY.

There died recently at Bedford, England, the widow of the Col. the Hon. John Hamilton Gray, at 61 years of age. He was a British Regiments, of Hussars, who, having taken up his residence in Charlottetown, Prince Edward Island, became a member of the Legislative Council, and was one of the fathers of Confederation, representing the island at the Charlottetown and later at the Quebec conference.

Mrs. Gray was a Miss Cambridge, a sister of the late Mrs. Swabey, whose husband some years ago was the rector of St. Jude's Church, Charlottetown. Mrs. Gray had one child only, a son, who had a command in the Third New Brunswick Regiment Garrison Artillery, and from there joined the Leinster Regiment. He is now a captain in the Canadian Regiment of Infantry, stationed at Halifax N. S. With this charming old lady, there passes away another of the few remaining links of the colonial days with the present.

CHAPPED HANDS.

It is not the annoyance alone which makes chapped hands a source of grave trouble to housewives and outdoor workers; it is the danger of festering and inflammation. Irritation, swelling, cracks or scaling roughness round about the knuckles and the back of the hand are serious, and the greatest promptitude should be exercised in treating with Zam-Buk.

The affected part should be cleaned of any dirt. Then gently anoint with Zam-Buk, smearing with the fingers or spreading on clean linen.

Zam-Buk will soothe the irritation, and finally completely end the inflammation and pain. Swellings will go down, and over the raw surfaces Zam-Buk will GROW NEW HEALTHY SKIN. Herds soft, strong and white are possessed by these who use Zam-Buk regularly during the winter.

CONVINCING TESTIMONY

Mrs. H. H. Rankin, of Appleton, Ont., says: "My hands had big cracks when which caused me such pain I could hardly work. Whenever I tried to put them near water they would smart and burn as if I had scalded them. They did not seem to be benefited by anything I tried until Zam-Buk was introduced. To my great pleasure within a very short time Zam-Buk closed up the cracks and healed the sore places. My hands are now white and smooth. I recommend Zam-Buk to a friend who had a sore finger, and it cured that, too. I think it a splendid household ointment."

SKIN RASH AND ECZEMA CURED.

Mr. G. Shaw, 109 Givens St., Toronto, says: "Reading of the wonderful healing qualities of Zam-Buk, I thought I would try it, as I had been greatly annoyed for some time with an itching, irritating skin rash on both arms. I had tried various remedies, but failed to find a permanent cure. I sent for a supply of Zam-Buk and began using it. The results were so satisfactory that I persevered, and through daily application of the ointment on my arms, the rash was completely removed. I found Zam-Buk, when applied to the skin, to be most soothing and to relieve the itching and irritation almost instantly. I have had no trouble since from skin eruptions, so I am fully convinced Zam-Buk permanently cures skin rash, eczema, and all other skin troubles."

Mr. M. Jones, of Tavistock, says: "I had over me for four years and painful scalp sore. Zam-Buk cured me of both, although everything else I had tried completely failed."

Zam-Buk

Zam-Buk cures cuts, lacerations, burns, scalds, eczema, pimples, running sores, poisoned wounds, sore feet, festering sores, piles, bad leg, chapped hands, chapped heels, chapped lips, chapped nose, chapped throat, chapped ears, and all injured or diseased conditions of the skin, rubbed in over the parts affected. It also cures rheumatism, sciatica, neuralgia, etc. From all druggists, 50c per box, or from Zam-Buk Co., Colborne St., Toronto, upon receipt of price. 6 boxes for \$2.50.

SOCIAL.

Mrs. Bulyea will receive at Government house Thursday afternoon, Nov. 29th, from four to six.

Mrs. Bulyea, who has been visiting Mrs. Walter Scott at Regina for some days, returned on Friday, accompanied by Mrs. Scott, who will be a guest at Government house for some weeks.

Mrs. Reid, 540 Fourth street, will receive on Wednesday of this week and in future on the last Friday of every month.

Mrs. MacMahon, who, with her young daughter, Emma, has been visiting in Prince Albert, will not return until the first of next month.

Mrs. H. C. Wilson, who is visiting in Toronto, assisted her sister, Mrs. Crowther, in receiving at a large At Home, given in Toronto last week in honor of the latter's daughter, Miss Lillian Crowther.

Numerous entertainments are being given in Montreal in honor of Miss Gabrielle Lavergne, who is to be married this week to Mr. Auguste Noel. The honeymoon will be spent in New York and Washington, after which the young couple will come to their western home.

Mrs. Cautley entertained on Saturday afternoon at a delightful tea, given in honor of her mother, Mrs. Helliwell, and Mrs. Elliot Helliwell, of Toronto, who are visiting Mrs. Cautley. About ninety guests enjoyed the hospitality of their hostess during the afternoon, the cosy reception room and tea room offering a delightful contrast to the rather merry weather outside.

Mrs. Cautley, who wore a gown of pale gray voile, was assisted in receiving by Mrs. Helliwell, gowned in black silk, relieved by white, and Mrs. Elliot Helliwell in an attractive dress of black chiffon richly embroidered. The tea table was artistically decorated with white chrysanthemums, pinks and ferns. Mrs. Turnbull and Mrs. Mowatt poured the tea and coffee, Mrs. Nightingale presiding at the ice cream-table.

THE INSIDE HISTORY

Covering Eight Years of Splendid Energy in Introducing New Systems and Methods.

When the history of Semi-ready Tailoring comes to be written, it should be written, now that the Company has conquered and overcome every obstacle there will be a proud story of Canadian enterprise and energy.

The development of an original conception is a ceaseless matter when one has arrayed against a new project many men of power and much capital, and when one has to surmount the apathy of men who prefer former customs to better ones.

A year ago, after expending \$100,000 in developing the American side, the affairs of the Semi-ready company reached a crisis, the inner history of which may never be told.

Today the Semi-ready Company is in a stronger and better position than it ever was, and chiefly because men of tailoring which has proven itself. The popular verdict is a great asset. The Semi-ready trade-mark label on the suit is the emblem of correct form, of good style and of superb tailoring, whether that label be on a \$15, \$19 or \$25 garment. Kelly & Moore will show the real Semi-ready label to anyone, in the on the inside pocket of coats, trousers and overcoats.

FARMERS AND THE TARIFF.

(Toronto Star)

The farmers of Canada, to the number of 10,000, have petitioned against increases in duty. It is sometimes alleged that the farmers are protectionists at heart; that while they would like free trade in things they buy, they would prefer protection in regard to the things they sell. This is rather a clever guess than an argument. Once establish a protective system, and everyone will try to seize as many of its advantages and avoid as many of its burdens as possible. It is a mere catch question to ask the farmer whether he is ready for free trade on the produce of the farm. The fair way is to ask him whether he is ready for free trade on a lower tariff all round whether he is ready to relinquish the advantages along with the drawbacks. Farmers who appeared before the Tariff Commission answered this question in the affirmative and said they were willing to sell in a free market, if they were allowed to buy in a free market.

In any case it is well that the Government should hear from the farmers, and learn what their views really are. At one time the tariff was made by a minister sitting in his office at Ottawa, with such suggestions as he might receive from interested persons. Usually these were persons who wanted increases. The great body of consumers was scattered and unorganized, and sent no deputations to the Minister of Finance. Farmers' deputations were unheard of. Of late years the Minister of Finance and some of his colleagues have followed the excellent practice of travelling through the country, holding open court, and listening to all sorts of people. The farmers have not only taken full advantage of this opportunity but have begun to organize with a view of watching and controlling tariff legislation.

There is much speculation as to the nature of the new tariff to be laid before Parliament in a few weeks. Mr. Fielding's inclinations are against restriction of trade, but it will be necessary to strengthen his hands, for we must expect that the advocates of a high tariff will fight for their interests. The new tariff may not be wholly satisfactory to farmers and other advocates of a low tariff. But that is no reason why they should not watch and check, and help every advance toward freedom. Even in Great Britain, freedom was not obtained in a day. The future is on the side of the advocates of a low tariff. Western Canada is increasing in political power more rapidly than any other part of the Dominion and the voice of Western Canada will assuredly not be for a high tariff.

During the past season there have arrived at the port of Quebec 110,000 immigrants, equal to the population of four Canadian counties. It is not to be added, for the year, the winter arrivals and those Americans who cross the frontier into Western Canada. Western Canada's population is many people as the Maritime Provinces and eventually will containfully as many as Ontario and the eastern provinces. In that Western country high protectionist ideas make no headway, and it is probable that protection will never obtain such a grip on Canada as it has obtained on the United States.

RED FIFE

COCKE

COLLARS

The life is not bleached out of the linen used in these Collars.

That is one reason they withstand laundry usage longer than other Collars.

Made only from an Irish linen, woven exclusively for Cocke, that will not break or wear out prematurely.

Edmonton's Call for Industries

From The Edmonton Free Press

Edmonton offers to the Eastern Canada manufacturers some very attractive inducements to follow the movement westward and establish in the Alberta capital branch factories, which in less than a generation will probably be as large as, or larger than, the present size of the parent factories in the east. Edmonton is calling for industries, a large and rapidly increasing market in the vicinity of Edmonton is calling for manufactured goods; and Edmonton's call will not long remain unheeded, the Alberta market will not always be supplied with manufactured goods from the east. Manufacturers will appreciate the opportunities in Edmonton and they who "get in on the ground floor," those who are first to commence operations, will reap the largest benefits. If Canadian manufacturers do not seize the opportunity, others will.

Experiences of the Past.

Perhaps the Canadian manufacturer who reads this will remark that it is an old story, that the market is limited, and he can very well continue to supply it from his eastern factory, that Edmonton is an over-boomed town, that there is bound to be a crash sooner or later, that the time isn't yet ripe for branching out in the west.

But what is the lesson of history? From the very first, Western Canada has suffered (and the east has also suffered) from the timidity and lack of confidence of the people of Eastern Canada. It was only after a bitter political struggle that the building of the C.P.R. was accomplished. Probably only a few of those who supported Sir John A. Macdonald and Sir Charles Tupper in the fight for the building of the first transcontinental really had any measure of their enthusiasm, and confidence. The personal magnanimity of the leaders and loyalty to party—these were the factors which had the most potent influence in securing the support of the vast majority of those who voted for the construction of the C.P.R.

The great majority of both political parties lacked faith and were wanting in those powers of imagination without which men can accomplish very little constructive work.

First Claim to Favor.

When the C.P.R. was building adventurous and restless spirits from the older provinces moved west, and very soon their hope of agricultural, commercial and industrial possibilities became profound conviction. They began to tell their eastern friends of the great opportunities in the new Canada beyond the lakes.

The boom of the early '80's, an east-Canadian boom almost wholly, rose and fell, enthusiasm waned, faith turned to doubt, and for ten years the east lost interest in the west. The dauntless spirit of those whom the prairies had adopted kept up the propaganda and a few responded to their call.

But eastern Canada merely shrugged its shoulders and laughed at the enthusiasm which seized every man who moved west. It was plainly hinted that the western air was hard on truthfulness, and the west was jokingly referred to as "That bourn from which no truthful traveler ever returns."

Eastern Canada lacked faith!

Demand for Men Continual.

The west still called for Ontario farmers and still traveled eastward the same stories of the fertility of the western soil. Two Ontario counties, Huron and Bruce, responded to the call, but for the most part the invitation came to too cautious or unheeding ears. There could be nothing but "western blow" in the stories he heard of western opportunities. So the eastern farmer stayed where he was, in many cases to eke out a scanty existence on a stony 50 acres when he could have had, for the asking 160 acres of the most fertile soil in Canada.

No one now doubts the agricultural possibilities of the west, for they have been proven by a succession of golden harvests and thousands are moving into the land of promise. The appeal to eastern Canada had for years fallen upon deaf and skeptical ears, and the west then turned to the United States with its story; and the result was that in two years more settlers came from the United States than had come from eastern faith!

The eastern Canada farmer lacked Canada in the preceding ten years.

Manufacturers' Investigation.

Will the Eastern Canada manufacturer be wiser than was the Eastern Canada farmer from 1855 to 1900? Just as insistently as the west called to the east for settlers it is now calling for manufacturers, and with stronger claims, for while there is still plenty of land for the newcomer, the manufacturing trade, once secured, will be held, and those that

get in now will grow with the country.

Winnipeg, Regina, Calgary, Edmonton and other centres present strong claims upon the serious attention of the eastern manufacturer, and it remains to be seen whether he will profit by the lesson of the "last two decades, or whether he will wait for the American manufacturer, with his optimistic aggressiveness, to show him the way. Does the eastern Canada manufacturer also lack faith? The next two years will answer the question.

American capital has reaped the largest profits from land speculations, and there is now very little land remaining which can be obtained, by capitalists on block; but American faith in the future of Western Canada is growing stronger every day, and there is nothing more sure than that if the Canadian manufacturer does not soon awaken to his opportunities, American capital will very shortly build large factories in the farthest west. People will not forever be content to send 2,000 miles east for their goods, and the manufacturers who first commence to supply Alberta with goods "made in Alberta" will be apt to secure and hold the Alberta trade. The market is already a large one, but it is only in its infancy. A generation from now it is more than likely that the population west of the lakes will be larger than the population east and the western market will be larger than the eastern. Will it be served by Canadian manufacturers who have established their factories in the west, or will it belong to the alert Americans?

Advantages of Edmonton.

What, then, are the special advantages which Edmonton offers to the manufacturer? Cheap power, abundance of raw material, good transportation facilities for the assembling of raw materials and for the distribution of the finished products, and proximity to a good market—these are the principal requirements of a good manufacturing town, and all of these Edmonton has to offer.

Abundance of Power and Cheap Fuel.

Is there any other place in the world where abundance of good coal may be had at \$2.50 per ton, where expensive mining operations are not required, but where the coal may be loaded directly into barges and wagons? This is what Edmonton has to offer in the way of cheap fuel and consequently cheap power, and apparently she can offer it in practically unlimited quantities. For miles in all directions from Edmonton there is abundance of good coal at a very small depth below the surface of the ground. Extensive mining operations have not yet been attempted; no shafts have yet been sunk, all the mining being done on the level. The coal has practically all been obtained along the high river banks into which the miners dig and load their coal directly into barges. Until a short time ago coal was selling in Edmonton at \$1.50 per ton; at the present time, owing to temporary circumstances, the price is a little higher. Practically the whole cost is transportation, and as teamsters are now commanding wages of \$4.50 to \$5 per day, as compared with \$3 a short time ago, the price of coal has been slightly advanced. With mining operations on a large scale and up to date methods of delivery, coal will be less than \$2.50 per ton. This coal is well adapted for both manufacturing and domestic purposes, and there are great opportunities for the development in Edmonton of an immense coal mining industry.

Coal being so cheap, little attention has yet been paid to the development of water power; but Edmonton is rich in "white coal" as well as in black, and should the supply of the latter ever be exhausted there is any amount of the former now going to waste. The city now has its own electric light and water plants and offers inducements to both large and small industries by supplying cheap power, water and light.

Exceptional Transportation Facilities.

Abundant raw material for various industries is also close at hand, but as this phase of the situation can be best treated by example it is discussed below in connection with specific industries. Equally important is the question of transportation. Two railways, the C.P.R. and the C.N.R., now serve Edmonton, and a third, the G.T.P. is assured in the very near future. While the plans of James J. Hill are not yet definitely known, it is unlikely that he will overlook Edmonton. It may therefore be safely assumed that in the very near future Edmonton will be served by four different roads.

The Extensive Market.

What of the market for Edmonton manufactured goods? Not so large yet as it very soon will be, but nevertheless a market of respectable proportions. Moreover, it is a market

with larger proportionate buying power than a market in the east. Westerners make money more easily than easterners and they spend it more readily. At the present rate of immigration it will be a very short time until there are as many people west of Winnipeg as east. The manufacturer first in the field will possess a very considerable advantage. Some manufacturers somewhere will very soon appreciate the possibilities of profit in supplying western people with western made goods. If the Canadian manufacturers do not seize the opportunity, others will.

Large Packing Plant and Stock Yards.

The farmers in the Edmonton section of the west do not, like their fellows in Saskatchewan and Manitoba, devote all their energies to the growing of wheat, but go in for mixed farming and the raising of stock. There would be large profit in the raising of hogs if an adequate market were provided. The majority of the farmers come from the corn states of the republic and have been accustomed to raising hogs. Alberta can grow the best of barley, and as everyone in the business knows, the Canadian barley fed bacon is much in favor on the English market. The natural pasture is also well adapted to feeding hogs, and clover and alfalfa are easily grown.

P. O. Dwyer, the Cleveland capitalist and stockyard expert, while making a tour of the Canadian West, after a critical examination of Edmonton and its immediate country, became satisfied that this was an ideal location for a huge stockyards, packing house and meat canning establishment. Mr. Dwyer says that within a radius of 100 miles or easy shipping distance, of Edmonton, there are, at the very lowest estimate, 20,000 farmers. He has talked with many of the leading and influential ranchers and farmers in this district and in every instance they were delighted with the packing house proposition, and large numbers of them are going into hog raising on a heavy scale. It is conservatively estimated that when the stockyards are in operation the farmers around Edmonton can readily supply the packing house with a million hogs a year.

Mr. Dwyer figures that as a home market his industry will have from Manitoba to the Pacific, now largely supplied with American products, and on goods for export the Canadian railroads have quoted him a rate from Edmonton to Liverpool only one half a cent a pound higher than the rate from eastern Canada. He asserts that the cost of raw material will more than counterbalance this slight disadvantage.

Large Soap Factory.

Mr. Dwyer says that as a consumer of by-product, the soap factory is a natural adjunct to the packing industry, and in connection with his meat packing enterprise he is going to erect the largest soap factory in all of Canada. He calculates that while there are at present two other large soap factories in the west, whose capacity is restricted to a comparatively small output, that for a plant of the magnitude he proposes building there is a most promising future. He points out how that the existing factories cannot commence to supply the rapidly growing western market notwithstanding the carload shipments sent west by eastern soap manufacturers. He contends that his factory will be in a splendid position because of the geographical location of Edmonton and its transportation facilities, to successfully compete for western business.

Large Bakeries Wanted.

Although Edmonton is a milling centre of considerable importance, in Alberta is brought hundreds and thousands of miles over railroads every pound of biscuits consumed which have already hauled east the wheat or flour of which the biscuit is made. Is it reasonable to suppose that this will continue indefinitely? There can be but one answer, and again the question arises whether the industries of Edmonton to be, will be built by Canadian or by American capital.

Flour and Cereal Mills.

Already the flour milling industry of Edmonton and the neighboring town of Strathcona has reached large proportions, but it is capable of great expansion, and the production of cereals has scarcely commenced. Oats weighing 40 pounds per bushel are ordinary in Alberta, and 48 pound oats are not uncommon. In many quarters the impression seems to prevail that the only winter wheat section in the west is in southern Alberta, but this is a mistake as it has been demonstrated that the best winter wheat in the world can be grown in northern and central Alberta. It is now being grown successfully in the vicinity of Edmonton but it has attracted comparatively little attention. Sunday & Co., the Liverpool grain firm, who purchase probably more actual grain than any other firm in the world, were so much impressed with the superiority of the red winter wheat grown near Edmonton that as an ex-

periment they bought 16,000 bushels at an advance of 4 cents per bushel over the price of No. 1 northern. This is equal to an advance of 1 cent per bushel over No. 1 hard wheat. There are three mills in Edmonton and seven in the vicinity.

There is a heavy demand in the west for building material, including paint, and consequently a large market for linseed oil, which makes the opportunity for linseed oil mills at Edmonton. The Alberta climate is admirably adapted for the growing of flax.

Pressed Brick Works.

The manufacture in Edmonton of pressed bricks is already a very considerable industry, and the product is entirely consumed in the home market. Orders have come from as far east as Winnipeg, but Edmonton manufacturers are not yet able to fill them. This industry is capable of large expansion.

The Lumber Industry.

Edmonton is also a lumbering centre of some importance, the mills cutting about 25,000,000 feet of lumber. A new mill is now being built which, it is estimated, will increase the output 50 per cent. The timber is brought down the Saskatchewan river, and the supply will last for many years to come.

An integral part of the lumber industry is the planing mill and sash and door factory, and they are on a large scale in Edmonton. These manufacturers are branching out and are now making a fine line of bank and office fittings as well as store fixtures, etc.

As a Wholesale Center.

Edmonton, viewed from almost any viewpoint, has every natural advantage essential to the growth of a larger distributing point. The vast country to the north, northeast and west is rich in everything desirable. It is one great storehouse of undeveloped mineral and agricultural wealth, fabulous deposits of iron and high grade copper ore, lead, petroleum, natural gas, building stone, asphaltum, marble, mica, and gold and silver. In agricultural possibilities, the country for hundreds of miles adjacent to Edmonton is almost one continuous stretch of that rich black loam so dearly beloved by the thrifty farmer. This top soil varies in

thickness from 18 inches to six and even eight feet, and is the most productive soil in North America. The rapidity with which this district is filling up, nothing short of phenomenal. Thousands of eastern Canadian and American farmers have emigrated to this section during the season just closed. Homesteads have been taken up, in fact there is virtually nothing available within a radius of 60 miles of this city, and many small settlements in the line of railway surveys have sprung up for a full hundred miles beyond this radius.

The C.N.R. is building into our north and west country. The G.T.P. has finally determined on the location of its pass through the mountains to the coast, the E. Y. and P. will extend its line into the virgin fields of the northern wilderness, the C.P.R. will shortly be racing with the C.N.R. and the G.T.P. for the sea shore terminals. All this means much to the manufacturer, the wholesaler and the merchant. Hundreds of towns will spring up all along the line of steel advancement, the country will fill up and a yawning market will speedily develop, the demands of these settlements must be met, and who will be better prepared to compete for these markets than the industries, manufacturing and wholesale enterprises of Edmonton, Alta.

To the shrewd manufacturer we say, come. To the far seeing business man we say, come. To the farmer we point with pride to the fertility of our great expanses of agricultural lands. To the skilled mechanic the Free Press extends the glad hand of welcome. Our towns are building with unequalled rapidity, and there is urgent appeals on every hand for skilled workmen in the building trades and highest wages paid. Edmonton is prospering. It is a good city to tie to.

ANDREW H. ALLAN,
CANDIDATE FOR ALDERMAN.

Andrew H. Allan, candidate for the city council was born in the riding of St. Anne's, Montreal, in 1876, attended the protestant separate schools of the city, from which he graduated with a scholarship through the Montreal high school, obtaining an A. A. degree in McGill at 15 years of age. He followed up mercantile life for several years, having positions of trust with such firms as the Massey-Harris, Shurey & Co., and Seybold Sons Co. He came to Edmonton in May 1906 and has been a resident and ratepayer here ever since. In his home city Mr. Allan always took a keen interest in politics, both local, federal and provincial and was a strong Liberal with a tendency toward radicalism. Mr. Allan believes that the commissioner question is the crux of this campaign and promises some radical changes in this regard as well as with relation to the methods of conducting the city's business both in the council and out of it.

SOLE AGENTS

WM. WHITE ON THE EDMONTON DISTRICT

From G. Carpenter, a Journalist of reputation in the United States has been giving to the many number of influential papers he represents, the results of his investigations in Western Canada. It may be remembered that Mr. Carpenter was in Edmonton about a year ago having been brought on a trip of observation by Mr. Knapp of the Western Canadian Immigration Association. Mr. Carpenter on that occasion became so enthusiastic over the samples of grain shown him in the board of trade office that he insisted on sending for a photographer and "got took" holding sheaves of Edmonton wheat and oats that considerably overtopped him. That picture has been reproduced in many United States newspapers and periodicals, and was also used to advantage in "The Last West" issued by the board of trade.

Much of Mr. Carpenter's information has been printed in the form of interviews with leading Canadians. There has lately been going the rounds of the U.S. papers his interview with Mr. Wm. Whyte, Vice President of the C. P.R.

After some interesting remarks as to the coming value of the Japanese market for Canadian wheat, the competition of the Siberian and Manchurian wheat fields, the conversation turned to Canada as a competitor of the United States in the foreign markets for wheat. Mr. Whyte said:

"Your people do not appreciate our possibilities. Your wheat lands are well defined. You had something like 45,000,000 acres under crop last year, and your average was about thirteen bushels per acre. Canada has 250,000,000 acres upon which wheat can be grown. It has five times as much wheat land as is now cultivated in the United States, and even if you deduct 100,000,000 acres on the account of swamp, muskeg and other bad lands, we have three times as much good wheat land left as you have. As to our average crop, it is twenty bushels and upwards per acre, instead of thirteen. When our land is all under cultivation we shall be able to supply the greater part of the European demand and aid in feeding you."

"Who are to be your chief competitors in the wheat market of the future?"

"The United States will compete for a time," said Mr. Whyte, "but your population is growing so rapidly that it will eventually consume all you raise and will probably have to rely upon us. Among other competitors Russia and Siberia will probably lead, but Russia is still very poorly farmed. Argentina will always be a competitor and India and Australia likewise."

There are those who think the C. P.R. vice-president is not particularly friendly towards Edmonton; but look at this:

"Tell me something about the Canadian west, Mr. Whyte. It is dependent entirely upon wheat for its success?"

"By no means," replied the railroad vice president. "A large part of Alberta and Saskatchewan is adapted to mixed farming. There is a great dairy country right near Edmonton which is now producing butter for British Columbia and the western markets. That region is adapted to mixed farming, and a great many of your Pennsylvania and Ohio people are settled there. They have big barns just as in the United States. The land there produces the finest oats. I know farmers who grow from eighty to 100 bushels per acre and the oats will weigh forty pounds to the bushel. It grows timothy as tall as a man and also barley and other grains. It is not so cold near the Rockies as farther east, and in many respects its more desirable for settlement than the wheat belt proper."

LANDS WANTED

In blocks or single sections, for quick sale to close buyers. Apply giving locative description, average 1906 yield of surrounding district, and lowest price and terms.

J. R. HEATHERINGTON
CANDIDATE FOR ALDERMAN

J. R. Heatherington, who styles himself the citizen's candidate, is a Scotchman by birth, having spent his early years on the heather clad hills of Auld Scotia and received his education in the Scotch free schools where democracy was taught by text and by precept. Previous to coming to Edmonton he spent several years in Boston, Mass., where he had an excellent opportunity to observe the evils that await a city which relinquishes the control of its municipal affairs to a

machine. He is not yet a year in Edmonton, but is already conversant with the defects of city government and has several reforms to suggest. He is a municipal ownership man and advocates a street railway at once with a limited fare for working men. Mr. Heatherington, although far across the sea, still retains his love for Bonnie Scotland, and is a member of the Scottish Clans, which order he proposes establishing in Edmonton at some early date.

NOTICE IS HEREBY GIVEN that The Canadian Northern Railway Company will apply to the Parliament of Canada at its next session for an Act increasing the powers of the company with reference to the issue of bonds or other securities; and extending the time for the commencement and completion of the lines of railway referred to in Section 4 of The Canadian Northern Act, 1905, and authorizing the construction of the following lines of railway:

(a) A branch from its line at or near Humboldt in the Province of Saskatchewan in a south-westerly direction to Township 29, Range 7, West of the Third Meridian, thence westerly and south-westerly to the City of Calgary in the Province of Alberta.

(b) A branch from a point in Township 29, Range 7, West of the Third Meridian in a south-westerly direction to a point on the Qu'Appelle, Long Lake and Saskatchewan Railroad and Steamboat Company between Craik and Bladworth.

(c) An extension of its line authorized by Chapter 52 of the Statutes of Canada, 1901, Section 5, Sub-section (a), in a westerly direction to a point in Township 5, Range 15, West of the Second Meridian, thence in a north-westerly direction to Township 16, Range 27, West of the Second Meridian.

(d) A branch from a point on its line at or near Humboldt north-westerly to a point in Township 43, Range 16, West of the Second Meridian.

(e) A branch from a point on its railway at or near South Battleford in a westerly direction to a point in Township 44, Range 27, West of the Third Meridian.

(f) A branch from a point on its line at or near North Battleford in a north-westerly direction to a point in Township 59, Range 1, West of the Fourth Meridian.

(g) A branch from its line at Strathcona southerly to Calgary.

(h) A branch from Regina south-westerly to a point on the International boundary.

(i) From a point at or near Saskatoon south-westerly to a point on the South Saskatchewan River.

(j) From a point on its authorized line at or near Edmonton, thence by the most feasible route to a point on the Pacific Coast.

(k) From a point on its authorized line near the forks of the Athabasca and McLeod Rivers south-westerly to the head waters of the McLeod River.

(l) From Battleford westerly a distance of one hundred miles.

(m) A branch from the Canadian Northern Railway at or near Strathcona in a south-westerly direction to Pigeon Lake, Province of Alberta.

(n) A branch from a point on the Canadian Northern Railway south of Neepawa, Province of Manitoba, thence north-westerly joining the Main Line at or near the crossing of the South Saskatchewan River.

Z. A. LASH,
Solicitor for the Applicant.
Toronto, November 15th, 1906.

Coming!
Learn Dress-Making
in four days, or learn by mail in your spare time at home.

Mr. and Mrs. Wm. Sanders, of the Sanders' Dress-Cutting School, Stratford, Ont., Can., will visit this place on date given at bottom of advertisement, and will show how you can learn to cut, fit and put together everything in dress-making. Course consists of eight lessons which are:

1st Lesson—How to take a correct measure. How to use the Elite Ladies' Tailor System to fit anyone.

By the time you are through with this lesson you will know as much about cutting as if you worked in a shop six months or a year, and gave from \$5.00 to \$25.00 for a system. In this lesson you test the perfect fit of system by making a waist for yourself or friend.

2nd Lesson—How to cut the different styles in shirt waists.

3rd Lesson—How to cut the different styles in lined waists, by draping, pleating, yokes, revers, boleros, etc., and putting all together. Fitting and particulars to finishing.

4th Lesson—How to cut by drafts all kinds of yokes, berths, collars, girdles and cuffs.

5th Lesson—How to cut different kinds of sleeves and put together.

6th Lesson—Everything about wrappers and Princess dress.

7th Lesson—How to draft to cut skirts by measurement by using the rule of system only; any kind of skirt, no matter what style, can be more easily cut than by using patterns.

8th Lesson—Finishing skirts, cutting coats, etc.

A few reasons why it is the best way to learn. (1) Because it costs no more than the making of one dress. (2) It only takes four days personally, or a couple of weeks by mail. (3) The whole family can learn from system and lessons you take home. (4) I have had thirteen years' experience in dress-cutting and teaching. Have taught over six thousand pupils and all were more than satisfied. I guarantee to give \$500 to any one who can't make a perfect fit after they are through—and you don't pay until you are through and are perfectly satisfied. Don't forget to call on Saturday. Farmers' daughters, and ladies who have worked at dressmaking, or apprentices, specially invited.

MRS. WM. SANDERS,
Inventor and Instructor.
Will beat Yale Hotel, Calgary, from Saturday, November 24th, to December 1st. At Windsor Hotel, Edmonton, from Saturday, December 8th to 15th, showing method of teaching and enrolling pupils. Will be teaching in each place the week following. Don't miss this opportunity if you have any desire to learn dressmaking.

The Oxford Hot Water Boiler
is built to use absolutely all the heat generated in the fire-pot.

The inclining walls of the fire-pot expose great surface to the direct heat of the fire. The first section is greater in depth than the other sections, and the flues of this section are bell-shaped, against which the heat rays sharply impinge, so that a greater body of water gets the direct effect of the fire.

Oxford Hot Water Boiler
The entire boiler is steel and iron. The joints are made with steel push nipples, which are absolutely indestructible—no rubber washers.

We would like to send you a copy of our book about the Gurney Oxford Steam and Hot Water Heating Apparatus. Write for it.

D. O. ROBLIN, TORONTO
Sole Canadian Agent

MRS. CHARLES MERRITT, 35 Cornwall Street, Toronto, Ont., says: "I was a sufferer from dyspepsia for 12 months before using Bileans. Pains in the chest and in the region of the heart, and a sensation of fullness in the stomach, usually after meals, were some of the symptoms. Such sudden and severe attacks of pain in the region of the heart made me think I had heart disease, but my doctor said there was nothing wrong with that organ, and the whole trouble lay in the food not digesting properly. I tried doctor's medicines and various remedies advised by friends and by druggists, but nothing seemed able to cure me of those terrible pains and the distress after food until I began using Bileans. A very few gave me such relief that I kept on using until I had no more trouble with my heart or stomach. I was recommended to try Bileans by parties who had used them as a family medicine for a long time, and now I would strongly recommend them to any sufferer from indigestion or allied symptoms. There is nothing to equal Bileans as an all-round medicine for young and old."

BILEANS

Bileans are altogether different and superior to the ordinary stomach and liver medicines. They are purely vegetable in composition and are a certain cure for headache, nausea, indigestion, constipation, etc. They also cure constipation, indigestion, and irregularity, anemia, rheumatism, debility, blood impurities, and all ailments and disorders arising from defective bile flow and assimilation. Of all druggists at 50c a box, or post free from The Bilean Co., Toronto, for price, 6 boxes for \$2.50.

NAME YOUR ROUTE

TO
EASTERN CANADA!

CHICAGO MILWAUKEE

AND
ST. PAUL RAILWAY

It is important when purchasing your ticket to Eastern Canada that you request the ticket agent to make it read over the Chicago, Milwaukee & St. Paul Railway. If you want the best of train service.

Five daily trains from Minneapolis and St. Paul to Chicago—including the Lay Express, affording a daylight ride in full view of the beautiful scenery of the Mississippi River. Canadian Excursion Tickets also accepted without extra charge on The Pioneer Limited and the U. S. Government Fast Mail trains.

Low round trip rate to points in Eastern Canada. Dates of sale, November 24 to December 31, 1906. Liberal return limits and stop-over privileges.

W. B. DIXON, N. W. P. A.
365 Robert Street, St. Paul.

J. I. GILLICK,
Commercial Agent,
349 Main St., Winnipeg.

R. D. ROVIG,
Traveling Passenger Agent,
345 Main street, Winnipeg.

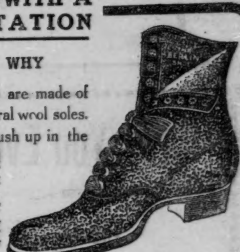

J. CALDWELL,
Special Passenger Agent,
Chicago.

A FELT SHOE WITH A GOOD REPUTATION

WHY ? WHY

Because **Berlin Shoes** are made of pure wool. Good heavy natural wool soles. No nails in the heels to push up in the feet and make them sore and cold. Every detail that goes in the shoe is the best, even to the thread and eyelets. A Felt Shoe made by the largest and oldest makers of Felt Shoes in America. By insisting on the **Berlin Brand** you are insisting on quality.

BERLIN FELT BOOT CO., Limited
BERLIN, ONT.

OVER-EATING OF XMAS FARE!

Pardonable at this Season, but the Results are Unpleasant

Eating more than is necessary is like choking a fire by putting on too much fuel. The food is not only undigested and useless, but a menace to health. Depression, drowsiness, headache, nausea, flatulence, and indigestion, are some of the consequences. A Bilean after dinner is the best help to the overburdened stomach. All sufferers from dyspepsia find Bileans indispensable. They enable you to eat what you like, when you like, and how you like. Unequalled as a family medicine.

INTERESTING CURE BY BILEANS.

Lady who had Dyspepsia for a Year.

Mrs. Charles Merritt, 35 Cornwall Street, Toronto, Ont., says: "I was a sufferer from dyspepsia for 12 months before using Bileans. Pains in the chest and in the region of the heart, and a sensation of fullness in the stomach, usually after meals, were some of the symptoms. Such sudden and severe attacks of pain in the region of the heart made me think I had heart disease, but my doctor said there was nothing wrong with that organ, and the whole trouble lay in the food not digesting properly. I tried doctor's medicines and various remedies advised by friends and by druggists, but nothing seemed able to cure me of those terrible pains and the distress after food until I began using Bileans. A very few gave me such relief that I kept on using until I had no more trouble with my heart or stomach. I was recommended to try Bileans by parties who had used them as a family medicine for a long time, and now I would strongly recommend them to any sufferer from indigestion or allied symptoms. There is nothing to equal Bileans as an all-round medicine for young and old."

APPLES

British Columbia and Ontario apples. Buy a barrel now while the low price lasts.

GARIEPY & LESSARD

JACK LONDON'S LATEST

People in Edmonton can appreciate more clearly than people in the East the way in which Jack London puts the atmosphere of some phases of Western life into his books. They will enjoy too this sympathetic review of London's latest, as published in a Toronto paper.

London, it says, "apparently understands the psychology of brutes, animal and human, better than ordinary tamed and civilized men and women." And the saying strikes one with the truth of it. Though whether it is a compliment to any man's spiritual and intellectual life to say he has such deep insight and sympathy with the brute nature is a doubtful matter.

This is the Toronto Reviewer's dictum:

Jack London this season stands pretty much alone in the animal story department. C. G. D. Roberts and Thompson Seaton having, temporarily at least, deserted the field. His new book, "White Fang," just published by the MacMillan Co. of Canada, is an animal story of the first rank. It is in the field of his early triumphs, and is as good as anything he ever did. He apparently understands the psychology of brutes, any tamed and civilized men and women, and human, better than ordinary. It would of course take a reviewer who was three-quarters wolf and one-quarter dog to speak with authority on the truthfulness of the character sketch of "White Fang," but the reader will not need such expert testimony, for the story carries conviction with it.

London resists the temptation to use animals to teach lessons to human beings after the manner of most tellers of animal tales from Esop to Kipling. White Fang does not talk, either in poetry or prose; in fact, he speaks only twice in his life and then under great provocation. But we understand him and feel with him from the time he rolls out of the wolf's lair away up on the Mackenzie River as a grey cub and makes his first killing of a prairie dog nestling to the time when, in California, he makes his last killing of a man and dies in the odor of sanctity after saving his master's life. It is the reverse of "The Call of the Wild." There the domesticated animal degenerates to the savage. White Fang rises from savagery under good influences to highly respectable domesticity.

London, as usual, serves up strong meat. His description of the fight between White Fang and the Bull Dog in the unregenerated days, when White Fang was as good as a gold mine for his owner as a professional dog-fighter in the Yukon mining camps, is about as brutal as anyone could wish it to be, however, probably the best story of a dog fight ever written. The opening chapters, too, describe the pursuit of two travelers through the ice-bound forests by a pack of hungry, crazed wolves and are full of thrills.

NO ALARM GIVEN

Bulletin Special.

Regina, Sask., Nov. 23.—The adjourned inquest on the victims of the Windsor hotel fire was resumed today at 1:30 p.m. in the civic chambers. The proceedings, however, were comparatively brief, only one witness being called. At the conclusion of his evidence, Mr. Frame, of the Attorney-General's department, intimated that the government had recently heard new and important information. He therefore asked that the inquiry be adjourned until one o'clock Monday afternoon. This was accordingly done. The one witness who was called was John Knox of Winnipeg, an agent for the Dominion Express Co. Mr. Knox stated that he was occupying Room 10 on the night of the outbreak on Monday morning. He was awakened about 1:30 o'clock by smoke which almost suffocated him. No one, said the witness, made any knock or alarm at his door. If the bell had been rung it would have awakened him. He got up and turned on the light and then observed smoke pouring in at the transom.

WILL GIVE IT UP

Bulletin Special.
Brandon, Man. Nov. 23.—Albert Taylor, the young Englishman who tried to take his own life yesterday, came before Police Magistrate James this afternoon. He was discharged on promising not to make another attempt on his life. His friends came forward and promised to look after him from day to day.

DAKOTA FIRE

Bulletin Special.
St. Paul, Minn., Nov. 23.—Early this morning, Aberdeen, S. D., had the most destructive fire in its history, the losses aggregating \$200,000, which is about half covered by insurance. The flames broke out in the rear of the Sherman hotel and spread till they consumed the hotel, Sherman's department store, Dlain's cigar store, Keating's barber shop, Ward's restaurant, Foster's barber shop, and Woodward's drug store. The heaviest loss is on the Sherman hotel, which is \$120,000. Several Kansas City, St. Paul and Minneapolis men had narrow escapes. The citizens helped the fire department and saved some goods. They worked hard till well into the forenoon before the fire was controlled. For a while the business section was in danger.

ASTORIA—Stylish, without being extreme. Looks best with large puff collar. Ample room between points. 1 1/4 inches at back. Chafeless neck-fit in Quarter Sizes.

Even a cotton foreign collar has surface looks; but for wear's sake get collars made of linen, for service. Doubly-sewn.

Only part of the wheat berry is fit for food. Yet much that isn't often gets into flour. You cannot see it or taste it, but it's there. It is simply a case of the miller getting more flour from his wheat and your getting less nourishment.

Royal Household Flour

is so milled that nothing goes into it except the part of the wheat that is food. You get just what you pay for—the best and purest flour made. It goes farther because it is all flour. Your grocer can supply you.
